SUMMARY

Dedicated and results-driven B.Tech Computer Science & Engineering student with hands-on experience in Training & Placement Operations and a strong academic foundation in Neural Networks and Deep Learning. Skilled in Java, Python, Web Development, AI/ML, stakeholder management, data analysis, and process optimization.

EDUCATION

Parul University

B.Tech in Computer Science & Engineering

Relevant Coursework: DSA · DBMS · OOP · Operating Systems · Computer Networks

Jul 2024 – May 2028

CGPA: 7.19/10

Parul University

Dual Diploma in Neural Network and Deep Learning

Aug 2025 – Aug 2026

CGPA: 9.0/10

M.S.M Samta College

Class XII (BSEB)

Apr 2024

Percentage: 58.3%

EXPERIENCE

Parul University – Training & Placement Cell

Aug 2025 – Feb 2026

Operation Executive Intern

- Managed end-to-end placement operations including registrations, assessments, interviews, and recruiter coordination.
- Coordinated 150+ placement drives involving 10,000+ students and 100+ recruiters.
- Maintained placement databases, hiring reports, and recruitment analytics.
- Collaborated with students, faculty, and recruiters to streamline hiring processes.

PROJECTS

Customer Support Face Call System – [GitHub Repository](#)

(React.js, Node.js, WebRTC — June 2026)

- Built a real-time customer support platform with browser-based video calling.
- Enabled direct communication between customers and support agents.
- Improved customer support accessibility and reduced response time.

MatchMaker – The Date Crew – [Live Website](#)

(HTML, CSS, JavaScript — May 2026)

- Developed a matchmaking and social networking platform that helps users connect based on interests and preferences.
- Implemented responsive user interfaces, profile management, and interactive matching features.
- Designed a modern and user-friendly experience to improve engagement and accessibility.
- Deployed the project using GitHub Pages and maintained the source code on GitHub – [GitHub Repository](#)

SKILLS

Languages: Java, C, Python, JavaScript, SQL

Frontend: HTML, CSS, React.js

Backend: Node.js, REST APIs

Databases: MySQL

AI/ML: Neural Networks, Deep Learning, TensorFlow, NLP

Cloud & OS: Microsoft Azure (AZ-900), Red Hat Enterprise Linux

Tools: Git, GitHub, VS Code, Figma, Canva

ACHIEVEMENTS

- HackVega 2.0 Finalist (Top 47,796+ participants; Round 3 shortlisted).
- Winner – XR Creator Hackathon, Parul University.
- Top 150 Finalist – PU Code Hackathon 2.0.
- Solved 350+ LeetCode Problems.

CERTIFICATIONS

- Information Technology Specialist – JavaScript (Certiport – Pearson VUE) – May 2025
- Information Technology Specialist – HTML & CSS (Certiport – Pearson VUE) – Mar 2025
- SQL (Advanced) – HackerRank – Jan 2026
- Microsoft Azure Fundamentals (AZ-900) – Udemy – Feb 2025
- Fundamentals of Red Hat Enterprise Linux 9 – Coursera – Dec 2024
- Python Programming – IBM Developer Skills Network – Sept 2025
- Generative AI: The Evolution of Thoughtful Online Search – LinkedIn Learning – Feb 2025
